- a. as the basis for new, personal theories
 - b. as abstract ideas
 - c. as a way to set organizational goals
 - d. to apply rules of scientific management to current issues being faced
 - e. to avoid the potential for recurring problems

ANSWER: a
RATIONALE: Most managers develop and refine their own theories of how they should run their organizations and manage the behavior of their employees. For example, James Sinegal, founder and former CEO of Costco Wholesale, always argued that paying his employees above market wages while focusing cost-cutting measures elsewhere were the key ingredients in the early success of his business. This belief was essentially based on his personal theory of competition in the warehouse retailing industry.

- a. flexibility in work arrangements
- b. structure
- c. long term opportunity
- d. benefits that include retirement plans
- e. strong corporate identity

ANSWER: a

RATIONALE: Generation X, Generation Y, Generation Z, and Millennials, as these groups are called, tend to be less devoted to long-term career prospects and less willing to adapt to a corporate mindset that stresses conformity and uniformity. Instead, they often seek work in smaller, more entrepreneurial firms that allow flexibility and individuality.

- a. as a cause for alarm
- b. as a way to attract new, long-term workers
- c. as a way to improve the organizations social media reputation
- d. as an opportunity
- e. as a way to encourage entrepreneurship

ANSWER: d

RATIONALE: An organization that fails to monitor its environment and to change to keep pace with that environment is doomed to failure. But more and more managers are seeing change as an opportunity, not a cause for alarm. Indeed, some managers think that if things get too calm in an organization and people start to become complacent, they should shake things up to get everyone energized.
