ESSAY

61. What is the impact of human capital on organizations, and how does this impact human resource strategy?

ANS:
There are six workforce characteristics that can create a competitive advantage. These characteristics are productivity, skill level, educational level, attitudes, quality of work, and KSAO's. A workforce that exhibits these characteristics is likely the result of a proactive human resource strategy.

DIF: Moderate
REF: AACSB, knowledge, skills, and abilities

62. Describe the major eras or schools of thought of human resource management.

ANS:
• *The scientific management era began during the 1880s during the Industrial Revolution. The movement was begun by Frederick Taylor, whose approach focused on three concepts: work rules, work methods, and standardized times.*
• *The unionization movement began during the 1930s and peaked around 1960. The growth of unions began with passage of the National Labor Relations Act in 1935. Many people enjoy job benefits such as vacation pay, 40-hour work weeks, and health insurance, largely because unions negotiated these benefits for their members. Nonunion employers eventually had to offer similar benefits to attract good employees.*
• *The Human Relations era began with the Hawthorne Studies in the 1920s but did not really begin to take hold until the 1960s. This era prompted managers to begin thinking about the importance of the individual in organizational structure and job design.*

DIF: Moderate
REF: AACSB, critical thinking

63. What was the key finding of the Hawthorne Studies?

ANS:

The researchers found that the increases in productivity occurred because of the human element of productivity rather than as a result of physical work environment. The Hawthorne Studies prompted managers to think about the importance of the individual in organizational structure and job design.

DIF: Moderate

REF: AACSB, knowledge, skills, and abilities

64. Define the term generation and how this impacts one's view of the world.

ANS:

A generation is a social grouping of people born within a defined time period that share similar cultural traits, values, and preferences. They provide a way to understand how different formative experiences (such as world and economic events, technology, and social changes) interact with the lifecycle and aging process to shape people's views of the world.

DIF: Easy

REF: AACSB, societal impact

65. Describe the difference between an ATS and an HRIS.

ANS:

- *An applicant tracking system (ATS) is a software program that manages the recruitment and hiring process, including job postings and applications. An ATS tracks each candidate through the application process and automates much of the process, saving labor time for the HR department and keeping applicants informed of their status.*
- *A human resource information system (HRIS) is a software or online solution that is used for data entry, data tracking, and the data information requirements of an organization's HR management. An HRIS typically integrates with a payroll system, and tracks paid time off (PTO), attendance, compensation history, positions and pay grades, disciplinary actions, training, development, and other types of data.*

DIF: Moderate

REF: AACSB, current and emerging technology

66. How is technology changing the nature of work?

ANS:

Advances in technology are fundamentally changing the nature of work in many industries and creating an imperative for continual lifelong learning. Basic skill levels were once the prerequisite the finding gainful employment, but advanced skill levels are becoming the norm. Many companies in developing countries are seeing a shortage of skilled workers for increasingly complex jobs.

DIF: Easy

REF: AACSB, foster lifelong learning

67. How does a societal interest in sustainability and corporate social responsibility impact HR practices?

ANS:

There are several possible answers:

- *In the context of HR, social responsibility includes creating and maintaining a workplace culture that respects everyone equally and in which all individuals are treated with dignity and respect.*
- *A socially responsible organization ensures that all employees conduct themselves in an ethical manner and maintain high standards of integrity.*
- *HR managers play a crucial role in making sure that new hires understand the organizational code of ethics and values and providing a process whereby potential violations of ethics or harassment can be reported.*

DIF: Hard

REF: AACSB, societal impact

68. How can workforce analytics be useful in HR management?

ANS:

Workforce analytics can be helpful in workforce planning, the management and improvement of business performance, learning and development, retention, and compensation.

DIF: Moderate

REF: AACSB, current and emerging technology

69. Who is ultimately responsible for managing human capital and implementing effective human resource management practices and procedures?

ANS:

Line managers and HR managers should share the responsibility for talent recruitment, development, and retention. In companies with successful human resource practices, the line and staff managers have learned that they both have some responsibility for HR management and have learned to support each other in a synergistic relationship.

DIF: HARD

REF: AACSB, critical thinking

70. What are the three general paths to an entry-level position in HR?

ANS:

- *A college degree in HR.*

- *A college degree in a related subject, such as business administration, then applying those skills to HR through experience and/or earning an appropriate certification.*
